

DOWNTOWN WICHITA

LEGEND

Signalized Crosswalk-

Pedestrian crossings with traffic signals allowing bicyclists to safely cross intersecting streets.

Shared Use Path-

A bikeway located away from motor vehicle traffic designed for use by bicyclists and other non-motorized users.

Sidepath-

A type of shared use path located next to a roadway.

Connecting Path-

A paved path less than eight-feet wide that connects two bicycle facilities. Bicyclists utilizing these facilities must yield the right-of-way to pedestrians.

Bikeable Street-

A neighborhood street with relatively low traffic volume that connects with similar streets in other neighborhoods. Longer routes could be formed by connecting these "bikeable" streets.

Bus Route-

Wichita Transit bus route. A system route map and individual route maps can be viewed online at www.wichitatransit.org/Routes/Pages

Railroad

Bike Shop

Library

School

Park

Hospital
